

Pranay Pradip Gurav

MERN Stack Developer

Kalyan, Maharashtra

guravpranay81@gmail.com — 9321596204

LinkedIn — GitHub — Portfolio

Summary

MERN Stack Developer focused on building end-to-end web applications using MongoDB, Express.js, React.js, and Node.js. Experienced in developing scalable APIs, integrating frontend with backend systems, and managing complete application workflows.

Skills

Frontend: React.js, Next.js, JavaScript, HTML, CSS, Tailwind CSS

Backend: Node.js, Express.js

Database: MongoDB, MySQL

Full Stack: REST APIs, Authentication (JWT), CRUD Systems

Tools: Git, GitHub, Postman, Docker

Experience

Web Developer Intern — Eargs Learning Solutions Pvt Ltd

Dec 2025 – Feb 2026

- Built full-stack features by integrating React frontend with backend APIs
- Solved data communication challenges between client and server
- Improved application performance and handled API-based data rendering

Projects

FixMyArea – Local Issue Reporting System

Jul 2025 – Oct 2025

Live Project

- Built a full-stack issue reporting platform with structured data handling
- Solved user management problem using authentication and role-based access
- Integrated frontend with backend APIs and MongoDB for real-time issue tracking

AgroInsight – Agricultural Intelligence Platform

Nov 2025 – Dec 2025

Live Project

- Solved fragmented agricultural data problem by integrating multiple APIs
- Managed backend data flow and connected it with frontend dashboards
- Improved user insights using real-time data visualization

ApplO – Job Application Tracker

Jan 2026 – Feb 2026

Live Project

- Designed structured application workflow using CRUD principles
- Simulated backend logic using LocalStorage for data persistence
- Built complete UI flow for managing job applications efficiently

Education

B.Sc. IT – K.V. Pendharkar College, Mumbai University

Score: 9.45/10

Certifications

HackerRank – Frontend Developer (React), 2025

AWS Academy – ML and AI Fundamentals
